

ZARIN MAISHA

HCI STUDENT

PROFILE

HCI Master's student at Aalto University with hands-on experience building backend services, REST APIs, and web applications. Experienced with Python, Flask, FastAPI, JavaScript, TypeScript, Angular, Git, and Linux-based development. Comfortable working across the stack and collaborating with multidisciplinary teams to turn requirements into functional, maintainable software.

EDUCATION

Aalto University

Master of Science, 2024- ongoing

Programme: Computer, Communication and Information Sciences

Major: Human-Computer Interaction

Relevant areas: User Interface Design, User Experience Research, Interaction Design, Software/Product Development

Aalto University

Bachelor of Science, 2021- 2024

Programme: Science & Technology

Major: Digital Systems and Design

Minor: Mathematics

Relevant areas: Programming (Python, C, C++), Digital Systems, Electronic Circuits

WORK EXPERIENCE

Aalto University, Computational Behavioral Lab

Research Assistant

Nov 2025 - Jan 2026

- Developed Python-based applications and interactive tools for research projects. [Link](#).
- Designed and implemented backend services and REST APIs using Flask and FastAPI.

Combine DAO

Jan 2024 - Mar 2024

Software Engineering Intern

- Developed application functionality using Angular/AngularJS and TypeScript.
- Worked in a Git-based collaborative software-development workflow.
- Worked across application components and gained experience understanding how frontend functionality interacts with frontend services/APIs.

PROJECTS

As part of my Bachelor's thesis, front-end creation of a movie reservation system, using HTML, CSS, and JavaScript: [Link](#)

- Developed the frontend of a movie reservation system using HTML, CSS, and JavaScript.
- Designed the application interface and implemented interactive functionality.

SKILLS

Backend & APIs

- Python, Flask, FastAPI, REST APIs, API development

Programming

- Python, C, C++, JavaScript, TypeScript

Frontend

- Angular, AngularJS, HTML, CSS

Development Tools

- Git, Linux/Ubuntu, WSL, debugging, software testing

HCI / Product Development

- Interaction design, prototyping, usability evaluation, user research

LANGUAGES

- English (Fluent)
- Bengali (Fluent)
- Finnish (Basics)

HOBBIES/INTERESTS

- Reading fictional novels
- Listening to music
- Running
- Cooking
- Writing
